

IS IT POSSIBLE

IS it possible for a note to be in three separate securities, yes.

IS it possible that the servicer of one of these securities is the servicer for the other two, yes.

IS it possible that one of the securities is identified as holder/owner who wants to foreclose, yes.

IS it possible that the other two securities have no idea of a foreclosure action but just notice from the servicer actions are pending, yes.

IS it possible that the other two securities have no idea of a foreclosure action but just notice from the servicer actions are pending, yes.

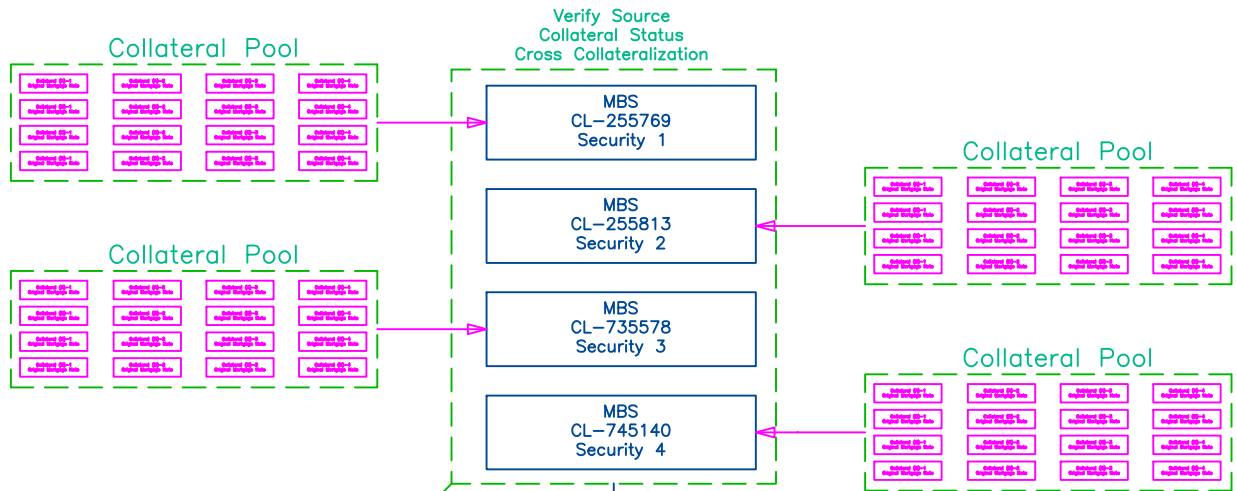

IS it possible that it IS easier to tell all three securities here is what you get from a foreclosure sale less fees, yes.

IS it possible that the foreclosure is to cover up that the note was used in three securities, very probable?

Can it be proved, yes.
